Dear David,

I am a physician and today I wish to give my sincere tribute to you.

On 9/25/07, I was experiencing the loss of the deaths of 3 family members over the last month.

When you stopped me for a headlight out, I admitted I had consumed alcohol.

You were honest, kind, respectful.

In writing a DUI that night, you gave me one of the greatest gifts of my life.

When I called you to say "thank you for that DUI," you indicated you could not recall anyone ever doing that

and also told me of your appreciation of me as a person & physician and wished me well.

Your integrity, gentleness and genuine concern gave me the courage to look at my own life. I am writing this letter from my treatment at the Betty Ford institute to thank you.

You changed my life forever for good. God bless you.

In your honor!
